

KOREA INSTITUTE FOR HEALTH AND SOCIAL AFFAIRS

**Directories of Population Experts,
Current Population Research and
Population Institutions in
the Republic of Korea**

1991

The regional Population Directory Programme of UN-ESCAP is funded primarily by the United Nations Population Fund (UNFPA)

FOREWORD

Thanks to the successful implementation of Korea's population control policy which was launched in 1962, the population growth rate went down ; the 2.34 percent growth rate of 1966 decreased to 0.93 percent in 1985. If this trend continues, the rate is expected to be zero percent in 2020. To increase the use of population information, it is very meaningful to understand the present status of population research, population experts' activities, and the facilities of population institutions.

The Korea Institute for Health and Social Affairs(KIHASA) produced, in collaboration with the UN/ESCAP, three types of population information directory. Each directory contains information regarding population related experts, on-going research and institutions. Their primary aim is to share data and experience. They increase the opportunities for data exchange either in printed form or in machine readable form. They are information tools that can help users identify the resources available to them and provide researchers with new ideas.

It is our hope that the directories will encourage population researchers, planners and institutions to cooperate among themselves and avoid duplicate research.

Sincere gratitude goes to all the respondents who cooperated on this project as well as the staff of the Information Management Unit of the Research Planning Division of KIHASA for successfully producing their directories.

Dal-Hyun Chi, Ph.D.

President

Korea Institute for Health and Social Affairs

INTRODUCTION

The three population information workshops held in the Asian and Pacific region since 1989 recommended that Asia-Pacific POPIN members exchange population information. The ESCAP Regional Population Information Centre promotes the use of CDS-ISIS(Integrated Set of Information System) for its POPIN members.

In the beginning of 1991, the Korea Institute for Health and Social Affairs(KI-HASA) was directed to assume responsibility for producing and distributing various types of databases and directories, so the Information Management Unit(IMU) of the Research Planning Division of KIHASA carried out a survey and published this volume which is composed of three directories: a directory of population experts, a directory of current population research, and a directory of population institutions.

It should be pointed out that the directories cover some fields in common. For example, the Directory of Population Experts may include the names of individual researchers/experts and the title of research reports published by those experts, and the same information may also be found in the Directory of Current Population Research. The present Directory of Current Population Research in the Republic of Korea lists current research either on-going or completed during a three-year period.

The primary aim of these directories is to draw attention to experts, current research and institutions in the field of population and to prevent duplication of effort by preventing redundant research while providing researchers with new ideas and helping them to identify available resources.

Three questionnaires, reproduced in the annex, were sent to researchers and institutions throughout the country to collect the information on experts, research and institutions. The data from the three directories are stored in the computerized database using CDS-ISIS software. The use of such a standardized package enables the sharing of experiences and data among network members.

We wish to express our gratitude to the various institutions and researchers who cooperated to provide the input on which the three directories are based.

The printing of three directories has been made possible with funding from the United Nations Population Fund(UNFPA).

LIST OF ACRONYMS

ADB : Asia Development Banks
ANU : Australian National University
CDC : Cairo Demographic Center
EEPC : Energy and Environmental Policy Center
EPB : Economic Planning Board
ESCAP : Economic and Social Commission for Asia and the Pacific

USSR : The Union of Soviet Socialist Republics
VSC : Voluntary Surgical Contraception
VTR : Video Tape Recorder
WFS : World Fertility Survey
WHO : World Health Organization
WHO-WPRO : West Pacific Regional Office

PART 1 :
DIRECTORY OF POPULATION
EXPERTS

HOW TO USE THE DIRECTORY OF POPULATION EXPERTS

Separate three-digit record numbers were assigned for each part for indexing purpose.

This directory is arranged alphabetically by the name of the experts.

Indexes are generated by the name of institutions and areas of expertise. Data elements and their contents are as follows:

Name:	Name of the expert.
Gender:	Gender of the expert.
Date of birth:	Date of birth of the expert. Enter two digits for the day, followed by a slash; then two digits for the month, followed by a slash; and then the last two digits for the year of birth.
Nationality:	Nationality of the expert.
Present home address:	The full address including postal code of the present home of the expert.
Name of institution/organization:	Name of organization the expert is employed
Position:	Job title of the expert.
Address:	Address of institution the expert is employed.
Country:	Name of country in which the concerned institution is located.
Telephone number:	Telephone number of the concerned institution.
Telex number:	Telex number of the institution.
Cable address:	Cable address of the institution.
Fax number:	Facsimile number of the institution.
Professional title:	Professional title of the expert.
Mother tongue:	Mother tongue of the expert.
Language:	Language other than mother tongue which the expert can handle fluently in terms of speaking, writing and reading.
Ethnic group:	Ethnic group to which the expert belongs.
Description of present work:	Describe the present responsibilities of the expert at work.

Areas of expertise: Areas of expertise covered by the expert. Reference to subject areas listed in POPIN thesaurus; Population multilingual thesaurus, 2nd Ed.

Educational background: Educational background of the expert.

Employment record: Employment history of the expert.

Previous consultancies: Information on previous consultancies the expert provided.

Important publication: Information on publications produced by an expert.

BODY OF DIRECTORY

Directory of Population Experts

=====

001

Name: Ahn, Kye-Choon

Gender: Male

Date of birth: 28/02/39

Nationality: Korean

Present home address: 175-409 Jinkwanoe-dong, Eunpyung-ku, Seoul
122-130, Republic of Korea

Employer: Department of Sociology, Yonsei University

Position: Professor

Address: 134 Shinchon-dong, Sudaemun-ku, Seoul 120-749,
Republic of Korea

Telephone number: 392-0131

Professional title: Professor

Mother tongue: Korean

Other languages: English

Ethnic group: Korean

Description of present work: Teaching and research

Areas of expertise: family planning; population; society

Educational background: 1973, Ph.D., University of Chicago, U.S.A.
1966, M.A., Seoul National University, Korea
1961, B.A., Seoul National University, Korea

Employment record: 80- , Professor, Department of Sociology, Yonsei
University
76-77, Deputy Director, Korea Institute for
Family Planning
77, Associate Professor, Yonsei University
73, Assistant Professor, Yonsei University

Previous consultancies: 90, Korea Institute for Health and Social
Affairs; 88, Bureau of statistics, Republic of
Korea; 74, Special Program of Research in Human
Reproduction, WHO

Important publications:

- The "unreached" in family planning in the Republic of Korea
- Migration and fertility
- A study on the acceptability of male fertility regulating methods
- An experimental study on the integration of family planning with health care and community development program

002

Name: Ahn, So-Young

Gender: Female

Date of birth: 01/03/52

Nationality: Korean

Present home address: Sampoong APT. 8-1001, Seocho 1-dong, Seocho-ku, Seoul 137-071, Republic of Korea

Employer: Statistics Office, Ministry of Health and Social Affairs

Position: Deputy Director

Address: Government Building, Kwacheon, Kyounggi-do 427-760, Republic of Korea

Telephone number: 503-7526

Telex number: K 23230

Fax number: 503-7568

Professional title: Official

Mother tongue: Korean

Other languages: English; French

Ethnic group: Korean

Description of present work: Statistical Planning. Planning of health & social statistical surveys and analysis of survey results. Co-ordination of statistical activities on health and social affairs. Conduct of concerned survey. Compilation of health and social indicators.

Areas of expertise: demography; estimates; government policy; health services; fertility; morbidity; methodology

Educational background: 1985, M.P.H. in Epidemiology & Biostatistics, Boston University, U.S.A.
1977, M.P.H., Seoul National University
1973, Bachelor, Ewha Womans University

Employment record: 91- , Biostatistician, Statistics Office, Assistant Ministry for Planning and Management, Ministry of Health and Social Affairs
88-90, Vice Officer, Accounting and Management

Office, National Medical Center, MOHSA
87-88, Biostatistician, Statistics Office,
Assistant Ministry for Planning & Management,
MOHSA
85-87, Health Educator, Health Education Office,
Bureau of Public Health, MOHSA

Important publications:

- Study on efficiency of health statistical survey. Journal of Population Studies, 21, Institute of Population Problems, 1977
- Study on parity progression ratio. Journal of Biostatistics, 1977

PART 2 :
DIRECTORY OF CURRENT
POPULATION RESEARCH

HOW TO USE THE DIRECTORY OF CURRENT POPULATION RESEARCH

Separate three-digit record numbers were assigned for each part for indexing purpose.

This directory is arranged alphabetically by the title of research projects.

Indexes are generated by the name of institution, subject area of research and source of funding. Data elements and their contents are as follows:

- Name of principal researcher:** Name of the principal researcher.
- Title of the research project:** Title of the project.
- Report title:** Title of the report, either published or unpublished.
- Name of institution/organization:** Name of organization the researcher is employed.
- Title of principal researcher:** Job title of the principal researcher.
- Address:** Address of the institution the researcher is employed.
- Country:** Name of country in which the concerned institution is located.
- Language:** Language of the research report.
- Objective of the research:** Description on objectives of the research.
- Areas of research:** Subject areas which the research is on. Reference to subject areas listed in POPIN thesaurus; Population multilingual thesaurus, 2nd Ed.
- Status of report-published/unpublished:** Status of the final report of the research project.
- Pagination of the report:** Size of the report of the research project in terms of number of pages.
- Availability of the report:** Availability to others of the report of the research project.
- Beginning/ending date of the project:** Duration of the research project. The form used is two digits of date, a slash, two digits of month, a slash, and the last two digits of year(dd/mm/yy)
- Source of funding:** Name of organization(s) which provided the fund for the research project.

BODY OF DIRECTORY

Directory of Current Population Research

=====

001

Name of principal researchers: Park, Soon-Young

Title of principal researcher: Professor

Title of the project: A Comparative Study of Physical Growth and Development of Korean, China, Republic of China and Japan

Name of institution: College of Medicine, Kyunghee University

Address: 1 Heagi-dong, Dongdaimoon-ku, Seoul 130-701, Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: Comparison of Physical Growth and Development between Korean, China and Japan's Youth

Areas of research: medicine; culture; social problems; statistical analysis

Status of report: unpublished

Pagination of the report: 40p.

Availability of the report: Yes

Beginning date of the project: 01/03/91

Ending date of the project: 01/03/92

Source of funding: College of Medicine, Kyunghee University

Directory of Current Population Research

=====

002

Name of principal researchers: Hermalin, Albert; Knodel, John; Cheung, Paul and others

Title of principal researcher: Professor

Title of the project: A comparative study of the elderly in four Asian countries

Name of institution: Institute of Aging

Address: 26, 3rd street, Pil-dong, Joong-ku, Seoul
100-715, Republic of Korea

Country: Republic of Korea

Languages: English

Objectives of the research: (a) Status of the elderly in four Asian countries, (b) health status in four Asian countries, (c) exchange of supports in four Asian countries, and (d) poverty in four Asian countries

Areas of research: fertility; age; urban areas; housing

Directory of Current Population Research

=====

003

Name of principal researchers: Kim, Chang-Seok

Title of principal researcher: Professor

Title of the project: A comparative study of urban settlement systems
between North and South Korea

Name of institution: Seoul City University

Address: 8-3 Jeonnong-dong, Dongdaemun-ku, Seoul 130-743,
Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: (a) Comparison of urban settlement patterns in
North and South Korea, (b) influence of
politico-ideological division on the development
of urban settlement pattern in Korean peninsula,
and (c) prospect of urban settlement pattern
after the unification of Korean peninsula

Areas of research: urban areas

Status of report: unpublished

Availability of the report: No

Beginning date of the project: 01/01/91

Ending date of the project: 31/12/91

Source of funding: Seoul City Government

Directory of Current Population Research

=====

004

Name of principal researchers: Han, Sang-Bok; Kwon, Tai-Hwan

Title of principal researcher: Professor

Title of the project: A study of the Korean people in Yanbian area of the people's Republic of China

Name of institution: College of Social Sciences, Seoul National University

Address: San 56-1 Shinlim-dong, Kwanak-ku, Seoul 151-742, Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: To identify and analyze the historical background of migration, settlement, adjustment, and present status of the Korean people as a minority group of the Chinese population in the northeastern provinces

Areas of research: ethnic groups; migration; population dynamics; population growth; population movement; population size; culture; economy; education; environment; wedding; family; religion; society; censuses; documentation; statistical analysis; surveys; rural areas; urban areas

Status of report: unpublished

Pagination of the report: 400p.

Beginning date of the project: 01/06/89

Ending date of the project: 30/06/91

Source of funding: Ministry of Education through UNESCO; National Commission of Korea

Directory of Current Population Research

=====

005

Name of principal researchers: Cho, Dae-Hee

Title of principal researcher: Senior Researcher

Title of the project: A study on changes in household, marriage and family in Korea

Name of institution: Korea Institute for Health and Social Affairs

Address: San 42-14 Bulgwang-dong, Eunpyung-ku, Seoul 122-040, Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: (a) Construction of marriage life table, (b) population projection by marital status, (c) household projection by household type, and (d) policy implications

Areas of research: demography; family; projections; nuptiality; types of marriage

Status of report: unpublished

Availability of the report: No

Beginning date of the project: 01/01/91

Ending date of the project: 31/12/91

Source of funding: Government Budget

Directory of Current Population Research

=====

006

Name of principal researchers:Lim, Jong-Kwon;Chang, D.H.;Hwang, N.M. and others

Title of principal researcher:Senior Fellow/Senior Researchers

Title of the project: A study on improvement of MCH program for urban health center

Name of institution: Korea Institute for Health and Social Affairs

Address: San 42-14 Bulgwang-dong, Eunpyung-ku, Seoul
122-040, Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: Through the analysis of managerial problem in the existing urban MCH program, the program quality improvement is attempted

Areas of research: health

Status of report: published

Pagination of the report: 250p.

Availability of the report: Yes

Beginning date of the project:01/01/91

Ending date of the project: 15/12/91

Source of funding: Government of Korea

Directory of Current Population Research

=====

007

Name of principal researchers: Hong, Moon-Sik; Chang, Young-Sik; Oh, Young-Hee
Title of principal researcher: Senior Fellow/Senior Researcher/Researcher
Title of the project: A study on national family planning programme
Report title: Evaluation of national family planning programme
Name of institution: Korea Institute for Health and Social Affairs
Address: San 42-14 Bulgwang-dong, Eunpyung-ku, Seoul
122-040, Republic of Korea
Country: Republic of Korea
Languages: Korean
Objectives of the research: (a) Periodical evaluation of accomplishments of
national family planning programme, (b) provision
of the future directions of the programme
Areas of research: population
Beginning date of the project: 01/01/91
Ending date of the project: 31/12/91
Source of funding: KIHASA internal budget for research projects

Directory of Current Population Research

=====

008

Name of principal researchers: Kim, Eung-Suk; Choeng, Key-Won; Lee, Sang-Hun

Title of principal researcher: Senior Fellow/Senior Researcher/Researcher

Title of the project: A study on the development of birth certificates`
system in small area

Name of institution: Korea Institute for Health and Social Affairs

Address: San 42-14 Bulgwang-dong, Eunpyung-ku, Seoul
122-040, Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: (a) Development of birth certificate form, (b)
construction of data collection networks, and (c)
find out factors to be considered in design and
implementation of the birth certificates` system

Areas of research: family planning; health services

Status of report: unpublished

Availability of the report: No

Beginning date of the project: 01/01/91

Ending date of the project: 31/12/91

Source of funding: Korea Institute for Health and Social Affairs

Directory of Current Population Research

=====

009

Name of principal researchers: Chung, Jo-Young

Title of the project: A study on the science and technology policy (policy, education, research system) in North Korea

Name of institution: The Korean Association of Science and Technology to the South-North based on Nongovernmental Exchange

Address: 635-4 Yeogsam-dong, Kangnam-ku, Seoul 135-703, Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: Expedition of exchange science and technology based on the nongovernmental status to the mutual interest projects-ecology, environment, exchange of science and technology manpower (professors, researchers, students), research and exploitation of agriculture, fishery, continental shelf, standardization of science and technology terminologies

Areas of research: administration; manpower

Status of report: unpublished

Availability of the report: No

Beginning date of the project: 15/03/91

Ending date of the project: 15/21/91

Source of funding: Financial aid from the government

Directory of Current Population Research

=====

010

Name of principal researchers: Kim, Yoon-Shin; Kim, Jong-Kun

Title of the project: An analysis of life expectancies of Koreans

Report title: Estimation of life tables of Koreans

Name of institution: College of Medicine, Hanyang University

Address: 17 Haengdang-dong, Sungdong-ku, Seoul 133-791,
Republic of Korea

Country: Republic of Korea

Languages: Korean

Objectives of the research: (a) To estimate the life table function, (b) to estimate the life expectancies of Korean, and (c) to compare life expectancies of Korean with Korean abroad

Areas of research: mortality; life table

Status of report: published

Pagination of the report: 124p.

Availability of the report: No

Beginning date of the project: 01/09/89

Ending date of the project: 30/06/90

Source of funding: Korea Institute of Health & Welfare

PART 3 :
DIRECTORY OF POPULATION
INSTITUTION

HOW TO USE THE DIRECTORY OF POPULATION INSTITUTION

Separate three-digit record numbers were assigned for each part for indexing purpose.

This directory is arranged alphabetically by the name of institution.

Indexes are generated by subject area of expertise, type of training requirement, type of training available and function of institution. Data elements and their contents are as follows:

Name of head of the institution: Name of the head of the institution.

Year established: Foundation date of the institution.

Name of institution: Name of institution.

Title of head of the institution: Title of the head of the institution/organization.

Address: Address of the institution.

Telephone number: Telephone number of the institution.

Telex number: Telex number of the institution.

Cable address: Cable address of the institution.

Fax number: Facsimile number of the institution.

Name of parent organization: Name of parent organization of the institution

Languages: Official language(s) used in the institution.

Objectives of the institution: Objectives of the institution.

Areas of Expertise: Subject areas which the institution deals with. Reference to subject areas listed in POPIN thesaurus; Population multilingual thesaurus, 2nd Ed.

Training requirement: Areas in which the institution requires training from other institutions.

Areas of training available: Areas in which the institution has expertise and is able to provide training for other institution which are lacking skills in these areas.

Type of institution: Type of institution. Types used are:
Governmental
Non-governmental
International/Intergovernmental

Function of the institution: Major function of the institution.
Functions used are:
Library

Information centre
Professional association
Research institution
Funding agency
University

Number of staff: State the number of staff, including both professionals and nonprofessionals, of the institution in arabic numerals.

Current projects: Title of a research project.

List of publications: Publications produced by an institution.

Conferences & seminars organized: Conferences and seminars organized by the institution.

Computer facilities: Computer equipment possessed by the institution.
The meaning are as follows:
Mainframe computer
Mini computer
Microcomputer
Printer
Scanner
Plotter
Mouse

Computer applications: Describe how the institution uses its computer facilities. Assigned applications are as follows:
Mailing lists
Bibliographic information storage and retrieval
Library automation
Budgeting and planning
Desktop publishing
Word processing
Demographic data processing and analysis

Size of document collection: Data concerning size of document collection maintained by the institution, but not including the collection maintained by the parent organization.

Indexing tools used: Indexing tools used by the institution to process its document collection.

Classification systems used: Classification systems used by the institution to process its document collections.

Cataloging rules used: Cataloging system used by the institution to process its document collections.

Member of national POPIN: Indicate whether the institution is a member of the national POPIN.

Co-operation with other institutions: Describe co-operative activities with other institutions.

BODY OF DIRECTORY

Directory of Population Institutions

=====

001

Name of head of the institution: Hong, Sung-Chick

Year established: 1957

Name of institution: Asiatic Research Center, Korea University

Title of head of the institution: Director

Address: 5-1 Anam-dong, Sungbuk-ku, Seoul 136-701,
Republic of Korea

Country: Republic of Korea

Telephone number: 926-1926, 922-4117

Telex number: KOREA KU K34138

Fax number: 924-9132

Languages: Korean

Objectives of the institution: To advance scholarly research on and public understanding of Asian realities

Areas of expertise: administration, attitude, communication, conflicts, culture, demography, economic conditions, economic relations, economic systems, economy, education, employment, ethnic groups, government policy, ideologies, information, international relations, international trade, labour, law, political systems, politics, psychology, research, social change, social problems, social organization, social system, society, surveys, working conditions

Training requirement: research methodology, statistical data analysis, technical writing/repackaging

Areas of training available: research methodology, technical writing/repackaging, statistical data analysis

Type of institution: Non-governmental

Function of the institution: library, information centre, research institute,

Number of staff: 58

Current projects: Science-technological development and social change; Socialist change and its impacts upon Korea; Studies on the developing countries; A comparative study on contemporary Japan; A study on Korea-China relationship

List of publications:

- The present and future of Korea-Japan co-operation

Center, Seoul National University

Title of head of the institution: Director

Address: Sillim-dong, Kwanak-ku, Seoul 151-742,
Republic of Korea

Country: Republic of Korea

Telephone number: 880-6313, 883-8745

Fax number: 873-6764

Languages: Korean

Objectives of the institution: Aims to facilitate research and training in
the fields of population and development.
Also the Center intends to provide a setting
where scholars in and outside of Korea with
the same interest can gather, exchange
opinions, and share the results of their
works. Another objective is the compilation
of archives of basic statistical materials
from various sources

Areas of expertise: population, demography, fertility, abortion,
health, occupations, employment, labour
force, environment, research

Training requirement: basic knowledge on demography

Areas of training available: research methodology, statistical data
analysis

Type of institution: Non-governmental

Function of the institution: library,
information centre,
research institute,
university,

Number of staff: 20

Current projects: Induced abortion and family health in Korea;
Housing conditions of lower class in Seoul
metropolitan areas

List of publications: -Life tables in Korea. 1990
 -Mortality transition in Korea 1960-1980. 1990
 -Water supply and sanitation in Korean communities. 1988
 -Socioeconomic status, inequality and fertility. 1987
 -Economic demography. 1986
 -The theory and practice of social change. 1985
 -Society in transition with special reference to Korea. 1982
 -Korea: a decade of development. 1980
 -Korean society: population and development. 1978

Conferences & Seminars organized: -International Conference on `The Roles of the Middle Classes in Newly Industrizing Countries`, Seoul, Korea, 15 Oct 1990
 -International Conference on `Population and Social Development: the Socio-cultural Implications`, Seoul, Korea, Feb 1985

Computer facilities: mainframe computer, microcomputer, printer,

Computer applications: mailing lists,
 bibliographic information,
 budgeting and planning,
 desk-top publishing,
 word processing,
 demographic data processing,

Size of document collection: 6,000 Books and monographs,
 100 Journal titles,

Member of national POPIN ?: Yes

Co-operating with other inst. Co-operate with WHO and ESCAP

Directory of Population Institutions
=====

013

Name of head of the institution: Choe, Ehn-Hyun

Year established: 1976

Name of institution: The Population Association of Korea, Korea
Institute for Health and Social Affairs

Title of head of the institution: President

Address: San 42-14 Bulgwang-dong, Eunpyung-ku, Seoul
122-040, Republic of Korea

Country: Republic of Korea

Telephone number: 385-6124, 355-8003 through 007

Fax number: 352-9129

Languages: Korean

Objectives of the institution: Aims to contribute to the development of
demography in Korea through the
implementation of scientific researches, and
the exchange of new skills, techniques, and
experiences in the population and demography
fields

Areas of expertise: family planning, fertility, government
policy, mortality, population

Training requirement: research methodology

Areas of training available: basic knowledge on demography, demographic
model building

Type of institution: Non-governmental

Function of the institution: Professional association,

Number of staff: 150

Current projects: Analysis on changing pattern of economic
active population by working life table for
Korean men; Household patterns in early 18th
century Korea; The wealth and substitution
effect on the demand for children with
non-homogeneous production function for the
quality of children; Overview on the future
options and directions of the Korean
population control policies

List of publications:

- Migration decision-making process: Synthesis of micro and macrolevel perspectives. 1989
- Major findings and policy implications of the 1988 national fertility and family health survey. 1989
- A study on improvement of vital registration and statistics system in Korea. 1988
- A multilevel analysis of fertility behavior in Korea. 1988
- The changes in quality of the labor force and its effects on the economic growth in Korea. 1988
- Impact of family planning programs on the family and its life cycle in ESCAP region. 1988
- A cohort study of mental, physical and behavioral impacts of early compulsory retirement in Korea. 1988

Conferences & Seminars organized:

- Seminar on the Directions of Population Policy in 1990s for Korea, 1990
- Seminar on the Optimum Level of Population Growth Rate in Korea, 1990
- Seminar on the Policy Implications of 1990 Population Census Results and New Population Projections

Member of national POPIN ? : No

Co-operating with other inst. 300 copies of the journal of PAK have been published and distributed to the pertinent academic and research institutions, association members, and government offices concerned. The journal is published by bi-annual basis

Annex : Questionnaires

Directory of Population Experts

Please provide information according to the following questions.

1. Name: _____

2. Gender(F or M): _____ 3. Date of Birth(dd/mm/yy): _____

4. Nationality: _____

5. Present home address: _____

Present employer

6. Name of institution/organization: _____

7. Position: _____

8. Address: _____

9. Country: _____

10. Telephone number: _____

11. Telex number: _____

12. Cable address: _____

13. Fax number: _____

14. Professional title: _____

15. Mother tongue: _____

16. Other foreign languages: _____

17. Ethnic group: _____

18. Description of present work and responsibilities: _____

19. Areas of expertise: _____

20. Educational background: _____

21. Employment record: _____

22. Previous consultancies: _____

23. Important publications: _____

Directory of Current Population Research

Please provide information according to the following questions.

Principal researcher

1. Name:

2. Title:

3. Research project title:

4. Report title:

Employer of the researcher

5. Name of institution:

6. Address:

7. Country: _____

8. Languages: _____

9. Objectives of the research:

10. Areas of research:

11. Status of report: (Enter "x" where appropriate)

—Published

—Unpublished

12. Pagination of the report: _____

13. Availability of the report?

—Yes

—No

14. Beginning date of the project(dd/mm/yy): _____

15. Ending date of the project(dd/mm/yy): _____

16. Source of funding:
